

FOR IMMEDIATE RELEASE

**Smyyth Collections LLC selected as one of the Top Ten Collection Agencies in North America.**

South Plainfield, NJ - November 1, 2014 - Smyyth Collections LLC has been selected as one of the **Top Ten in America by TopTenReviews.com**. Smyyth Collections is an affiliate of the Smyyth companies, which provides end-to-end credit and accounts receivable management services and SaaS "credit to cash" technology.

Frank Boni, V.P. and General Manager stated "We are very gratified to receive this award, as we work hard and focus full-time on surpassing client expectations. We came in #3 in the country over-all, but **actually #1 for independent commercial agencies**, as the first two were a consumer agency, and a national membership association (NACM). TopTenReviews reviewed hundreds of collection services companies and rated them according to reputation, stability, results, testimonials, etc.

At Smyyth Collections, we understand the AR Collection Lifecycle, and whether you assign an account or an entire portfolio, we combine expertise, information, and state of the art technology to deliver superior results. We can assist you at any stage of the Accounts Receivable Lifecycle, and features include:

1. **Clout.** The Smyyth group includes Credit2B.com, a national trade credit ratings agency, which provides the debtor a strong incentive to pay their account.
2. **Insight.** Our Accelerated Collection Strategy™ (ACS) empowers our collection staff with business credit information from Credit2B data on 25 million businesses, and 100 million payment histories. Other agencies rarely know more than the telephone number.
3. **Action.** Our collection professionals are led by industry veterans with comprehensive experience. Special Agents are available for complex cases.

**About Smyyth LLC -since 1906 - Credit-to-Cash Services and Technology**

Smyyth provides world class Credit-to-Cash services used by the world's largest companies to manage credit risk, and optimize cash flow and profits using best practices for credit, accounts receivable, collections and deduction management. The Smyyth technology platform streamlines operations, slashes costs, and increases profits. Six Sigma principles, Safe Harbor, and SSAE16 compliant.
