FOR IMMEDIATE RELEASE

**Smyyth Renames its Enterprise Accounts Receivable SaaS Technology
“CARIXA”**

South Plainfield, NJ—April 1, 2009—Smyyth LLC has announced a change of name for its revolutionary credit, accounts receivable, collection and deduction management technology platform (SaaS) to CARIXA™.

“In development for four years, CARIXA is a best-in-class enterprise product that has been tested by the diverse demands of Smyyth’s accounts receivable outsourcing operations for two years,” said Kristen Metzger, President of Smyyth.

“In an accounts receivable software market of outrageously costly and lumbering legacy and ERP systems, CARIXA moves the power and control to the users with a system designed for the internet, requiring no hardware or software. With CARIXA’s powerful user interface, Microsoft SQL Server database technology, and enterprise level hosting, security and dependability, it is a true solution to the most complex receivables’ challenges”.

“With it’s user definable rules and workflow, changes and customization can be made easily without IT support,” Metzger said. “This enables our customers to be more responsive to *their* customers. And CARIXA means freedom from restraints and limitations. That is exactly what our products and services offer our customers. CARIXA frees our customers to do what they do best, growing their business.”

Kristen states, “*Our corporate philosophy is to build-in industry best practices in everything we do, including our technology. We are interested in not only streamlining credit and account receivable operations, but also optimizing the financial results our clients achieve*”.

For more information or to make an appointment, please contact Kristen Metzger at 201-714-4545 or by email at kmetzger@Smyyth.com
